MAJOR ELECTRICALS

25+ Years of Experience

SERVO VOLTAGE STABILIZERS

Voltage stabilizers for homes, businesses and industrial applications. Single-phase and three-phase options.

ABOUT MAJOR ELECTRICALS

Major Electricals provides voltage stabilizers for residential, commercial and industrial applications. Our single-phase and three-phase solutions are specified according to connected load, incoming voltage and operating requirements.

VOLTAGE STABILIZER RANGE

01 **SINGLE PHASE STABILIZER**
Reliable voltage regulation for homes, shops, offices and individual electrical appliances.

02 **THREE-PHASE STABILIZERS**
Designed for industrial machinery, commercial installations, workshops and pumping systems.

03 **INDUSTRIAL SOLUTIONS**
Voltage stabilization for motors, pumps, production equipment and critical electrical loads.

04 **RESIDENTIAL SOLUTIONS**
Practical voltage protection for household appliances and residential electrical systems.

05 **CUSTOM CAPACITY SELECTION**
Ratings and input-voltage ranges selected to suit the installation and connected equipment.

06 **INSTALLATION SUPPORT**
Technical guidance for selection, connection, commissioning and after-sales requirements.

OUR EXPERTISE

Voltage Stabiliers for Residential, Commercial and Industrial power requirements.

RESIDENTIAL STABILIZERS

Single & Three-Phase Systems 1–30 kVA

Designed to maintain stable voltage for household appliances and electrical systems, protecting them against voltage fluctuations.

COMMERCIAL STABILIZERS

Single & Three Phase Systems 5–100 kVA

Built to provide consistent voltage for offices, shops and commercial establishments, ensuring dependable equipment operation.

INDUSTRIAL STABILIZERS

Three-Phase High-Capacity Systems 25–3000 kVA

Engineered for demanding industrial applications, delivering stable voltage for machinery, motors and production equipment.

CUSTOM STABILIZERS

Application-Specific Configurations

Designed and manufactured to meet specific voltage, capacity and application requirements for residential, commercial and industrial use.

MAJOR ELECTRICALS

WHY MAJOR ELECTRICALS

01 **25+ YEARS OF EXPERIENCE**

Experience in electrical equipment, manufacturing and industrial services.

02 **TECHNICAL EXPERTISE**

Practical electrical engineering expertise to help select the appropriate configuration.

03 **1 & 3 PHASE OPTIONS**

Voltage stabilizers for both single-phase and three-phase power supplies.

04 **APPLICATION-LED DESIGN**

Each solution is specified with the connected load and supply conditions in mind.

05 **ELECTRICAL CHECKS**

Electrical checks and verification according to the supplied configuration.

06 **RESPONSIBLE SUPPORT**

Support with product selection and installation requirements.

APPLICATIONS WE SERVE

HOMES
RETAIL + OFFICES
FACTORIES
WORKSHOPS
WATER + IRRIGATION
FOOD PROCESSING
UTILITIES
MANUFACTURING
